## **Abstract:**

See below. Determination available in abstract form only. Included under "Letter" field to facilitate database word searching.

---

## **Letter:**

Does the manufacturing standard apply only to sources using commercial asbestos and not to those receiving asbestos as lap, roving yarn, mat, or some such form?

Yes, except in the case of woven friction products, where the operation begins with textiles containing commercial asbestos. Regulations for some fabrication operations will be proposed soon.

Revisions were promulgated 10/14/75, at section 61.22(h), covering the following fabrication operations: cement building products, certain friction products, and cement or silicate board.
