

U.S. Environmental Protection Agency Applicability Determination Index

Control Number: A930021

Category: Asbestos
EPA Office: OAQPS
Date: 02/04/1993
Title: Building Demolition Project--Steel Mill
Recipient: Fosco, Angelo
Author: Seitz, John S.

Subparts: Part 61, M, Asbestos

Abstract:

The applicability of the Asbestos NESHAP standards to a building demolition project (LTV Steel Mill) in Chicago, Illinois is discussed. The mill was demolished and the issue raised has been resolved.

Letter:

Mr. Angelo Fosco
General President
Laborers' International Union of North America
905 - 16th St., N.W.
Washington, DC 20006-1765

Dear Mr. Fosco:

This is in response to your letter dated December 7, 1992 bringing to Mr. Reilly's attention an issue concerning the revised asbestos National Emission Standard for Hazardous Air Pollutants (asbestos NESHAP) and the application of those standards to a building demolition project (LTV Steel mill) in Chicago, Illinois.

You raised the same concerns that Mr. John B. Moran raised in his October 25, 1992 letter to Mr. John B. Rasnic, Director of the Stationary Source Compliance Division (SSCD). A written response to Mr. Moran's letter was issued December 21, 1992 (see enclosed). Our response to Mr. Moran provided a means for working with the Environmental Protection Agency (EPA) Region V and the Illinois EPA to resolve the issues of demolishing the mill. We are pleased to inform you that the mill has been demolished and the issue raised in your letter has been resolved.

I appreciate the opportunity to be of service to you and trust this information will be helpful to you. If you have any further questions concerning the LTV project, please contact Dave Kee of EPA Region V at (312) 353-2212.

Sincerely,

John S. Seitz
Director
Office of Air Quality Planning
and Standards
