

U.S. Environmental Protection Agency Applicability Determination Index

Control Number: C22

Category: Asbestos
EPA Office: Region 5
Date: 06/28/1985
Title: Shower Water
Recipient: Sanders, Jerry W.
Author: Varner, Bruce A.

Subparts: Part 61, M, Asbestos

References: 61.140

Abstract:

Shower water is not regulated by the asbestos NESHAP. In addition, EPA has no other regulations which would prohibit disposal of shower water into the sewer.

Letter:

June 28, 1985

Dear Mr. Sanders:

Thank you for your June 12, 1985, letter concerning the disposal of shower water used by personnel involved in asbestos abatement. You ask if there are any regulations prohibiting disposal of this water into the normal sewer lines.

Shower water is not regulated by the asbestos National Emission Standard for Hazardous Air Pollutants (NESHAP), 40 CFR 61.140, et seq. In addition, I have determined that the U.S. Environmental Protection Agency has no other regulations which would prohibit disposal of this water into the sewer.

If I can be of further assistance, you may contact me at 312-886-6793.

Sincerely yours,

Bruce A. Varner
