## **Abstract:**

See below. Determination available in abstract form only. Included under "Letter" field to facilitate database word searching.

---

## **Letter:**

Is the spray-on application of asbestos containing materials used for the purpose of decoration or of providing a chemical resistant surface subject to the regulations?

The regulation applies only to the spraying of asbestos for purposes of insulating and fireproofing. However, the manufacturing of these materials is regulated by Section 61.22(c)(7), the manufacturing of a coating. All spraying application containing over 1% asbestos will be covered by upcoming revisions to the regulations.
